

Batavus Basket

Disclaimer: Have the accessories fitted by an official Batavus dealer.

Please note: these are instructions for models with and without a steerlock.

You will need:

1. Allen key 5 mm
2. Headset wrench
3. 2x Box wrench 10 mm
4. Torque wrench

Version with steerlock:

Step 1: Put the bicycle on the stand.

Step 2: Remove the handlebar stem, take off the *topcap*, unscrew the *steerlock topnut* and *headtubenut*, and then remove the *spacer* (5 mm).

BATAVUS

Batavus Basket

Version with steerlock:

Step 3: Now place the *mounting bracket stem* where the *spacer* was before.

Then fit the following parts in order:

1. *Headtubenut*
2. *Steerlock topnut*
3. *Topcap (lower)*

Step 4: Next tighten the *headtubenut* and *steerlock nut*, fit the *topcap* and then replace the handlebar stem and secure it in the right position. Go to page 5 for instructions on fitting the basket.

Batavus Basket

Version without steerlock:

Step 1: Put the bicycle on the stand.

Step 2: Remove the handlebar stem, take off the *topcap*, unscrew the *steerlock topnut* and *headtubenut*, and then remove the *spacer* (5 mm).
